bond (26, 22)

bond (13, 9)

bond (10, 16)

Graphical representation of the bond order distribution for bond (10, 16). The plot shows a highly concentrated distribution of bond orders, with the majority of the data points clustered around 1.00. The distribution is characterized by a dense, vertical stack of green-filled, jagged shapes, indicating a very narrow range of bond orders. The x-axis is labeled 'Bond order' and ranges from 0.94 to 1.04. The y-axis is labeled 'Graphical representation of the bond order distribution'.
